
REFERENCE FOR VINCENT DIRKS

1 January 2024

To Whom It May Concern,

RE: VINCENT DIRKS - QUALITY ENGINEER

I worked with Vincent Dirks from July 2022 to April 2023, during which he was a Senior Automation Quality Engineer on a team where I held the role of Technical Product Owner.

In this role, Vincent carried out:

- Automated, manual and exploratory testing
- Web application development and design
- Participating in agile ceremonies
- Internal research and analysis

Vincent is a very versatile Engineer. As this team focused on Platform Engineering concerns, Vincent adapted by learning new tools and taking on diverse responsibilities beyond his role as a Quality Engineer. Vincent's enthusiastic and constructive attitude significantly contributed to the design and development of a custom application for Westpac staff. Vincent strived to be a team player, highly collaborative, consistently communicating clearly and proactively in our remote team.

Vincent's commitment to growth was evident through seeking feedback, actively addressing areas for improvement, and collaborating with individuals to expand his skills. Moreover, Vincent's dedication to enhancing the end-user experience and his role in fostering a collaborative, agile team were commendable.

I truly appreciated Vincent's contributions and enjoyed working alongside him. If you require any further information, please don't hesitate to contact me.

Yours sincerely,

Hannah Gray
